

1000/1200 Series

Rim Cylinders

1000 Series Rim Cylinder

The 1000 series will retro-fit all standard UK Rim cylinders. Installing a replacement Rim cylinder is a simple task which should be carried out whenever a key is lost or if moving to new premises. Cylinders are available in all popular finishes and keyed alike function, enabling several doors to be controlled by the same key.

General Specification

- Anti pick drivers**
- Anti pick key profile**
- Large range of key combinations**
- 2 brass keys, nickel plated**
- Available in polished brass (PB) or satin chrome (SCP)**
- Available keyed to differ or keyed alike**

1200 Series Rim Mortise Cylinder

The 1200 series screw in cylinders are supplied in pairs – 4 keys per pair, keyed alike. They can be supplied as singles or multiple keyed alike to order. The pin tumbler mechanism is the same as the 1000 series rim cylinder. This cylinder will retro-fit most screw in cylinders but attention should be paid to the cylinder length (25mm) and the cam profile. The 1200 series is fitted with a Yale type profile cam.
