

# 50/55 Series

## Combination Cable Lock 50/I/V

□ Ideal for use with pushbikes and scooters, the combination alleviates the need to carry a key. The wire cable coils round a frame and wheel for security against theft:

- 10mm hardened steel cable**
- Tough durable body**
- Easy change combination**

## Combination Chain Lock 55/I/V

□ Ideal for use with pushbikes and scooters, the scratch proof sheath protects your vehicle whilst the combination alleviates the need for key carrying. The chain is very flexible and winds around a frame and wheel.

- 5mm Square link molybdenum chain**
- Tough durable body**
- Easy change combination**
- Flexible non-damaging protective sleeve**
