

750 Series

Armoured Steel Shutter Lock

12

The 750 series padlocks have been specifically designed for use on roller shutter doors but can be used in any application as an alternative to closed shackle padlocks. The shackle configuration, especially when used in conjunction with a security hasp & staple, prevents attack by conventional bolt cutters. The hardened steel cover provides a high degree of drill resistance.

General Specification

- Hardened steel shackle – 56-58 HRC**
- Solid brass body with hardened steel cover**
- Function – closed shackle**
- Anti pick drivers**
- Anti pick key profile**
