

790 Series

13

Solid Steel Shutter Lock

The 790 series padlocks have been specifically designed for use on roller shutters doors, but can be used in any application as an alternative to closed shackle padlocks. The shackle configuration, especially when used in conjunction with a security hasp & staple, prevents attack by conventional bolt cutters. The hardened steel body provides a high degree of drill resistance.

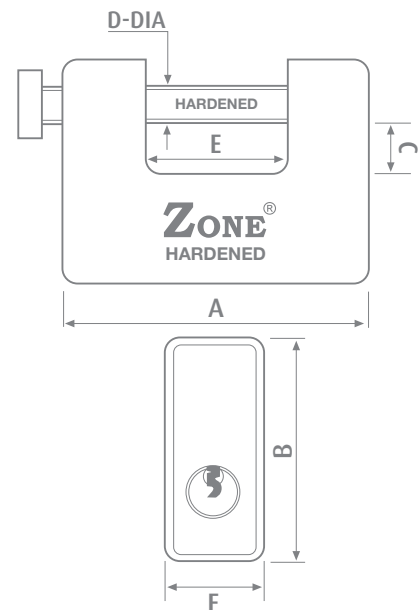

General Specification

- Hardened Steel shackle - 56-58HRC
- Solid steel body
- Function - closed shackle
- Anti pick drivers
- Anti pick key profile
- Large range of key combinations
- 2 brass keys, nickel plated
